

THE CLAY CITY TIMES.

\$1.00 a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. XVI.

CLAY CITY, KY., THURSDAY, MARCH 16, 1911.

NO. 11

THE END OF TUBERCULOSIS

Hospitals For Advanced Cases.

By DR. WILLIAM H. WELCH.

It is not so easy to say exactly what has been responsible for this progressive diminution in the amount of tuberculosis, but Koch in Germany and Arthur Newsholme, the best vital statistician in English speaking countries, came to the conclusion that the factor that has done the most is what is called institutional segregation. That means the isolation of patients with tuberculosis, so far as is possible, in institutions. That should be emphasized today as the central feature of the campaign against tuberculosis, and the great need in this country is a supply of suitable hospitals for these cases of advanced tuberculosis.

Effect of Bad Roads.

We are next-door neighbors to Louisville, the biggest city in the State, but have worse roads than the backwoods sections of Arkansas. We cannot progress along one line and retrograde along others. Bad roads cheaper land; they make schools a failure; they discourage the raising of good stock; they encourage the use of rickety old vehicles; they keep down local pride, county pride and individual pride. They encourage all that should not be done and help keep down all that should be done. Bad roads lead to poverty in this life, and in the next world everybody knows where the bad roads leads. Gentlemen of the Fiscal Court, we want better highways.—Shepherdsville News.

There is Only One Pine-Tar-Honey
This is Dr. Bell's. It is the original and can be relied on in croup, coughs, colds and all lung and bronchial troubles. Look for the bell on the bottle.

Farms Breeders Association.

Leading farmers of Lee county have formed an association which has been incorporated and bought several head of thoroughbred breeding stock and placed in different parts of the county. This is a progressive step in the right direction. Good cattle and good horses makes the same amount of farming more profitable and a much greater pleasure. The Times would indeed be glad to see such a movement in Powell and Estill counties.

Doesn't Get Paper.

John W. Vaughn, of Phoenix, Ariz., one of the best citizens that ever left Powell county sends cash to pay for two years subscription to the Times, and makes complaint of not receiving the paper regularly. It leaves this office promptly every Thursday and should reach each subscriber with no delay but it does not always do it. The trouble arises after leaving Clay City and seems to be beyond our control.

To Enlarge Store Building.

Waldron & Johnson, the enterprising merchants over the river have found the store building they occupy too small for their ever increasing business so will build an addition to the store room. This firm has built up a large business which they have justly merited through their courteous treatment and fair dealings with all customers.

Calvin McKnight.

Bro. Calvin McKnight was born October 12, 1846, departed this life Feb. 14, 1911, age 64 years, 4 months and 2 days. Was made a Mason of Stafford Lodge No. 562 in the year of 1891.—J. M.

Tomorrow is St. Patrick's Day, a day of great celebration with the Irish.

An Editor on the Road.

Clay City, in Powell county, is one of the old-time boom towns in Kentucky which refused to curl up and die when the boom left it. Whatever damage may have been done to the town in the days of fictitious values, something of the boom spirit has survived, and Clay City is a town of importance and has not lost its ambition to grow bigger and more prosperous.

Clay City has a newspaper called the Times. It is a small paper, but a good one, and it compares favorably with other country papers of known stability and excellence. Mr. J. E. Burgher, the editor of the Times is a "live one". For a number of years he has been advocating good roads through the columns of his paper, but the citizens of Powell county, or a majority of them at least, have not been paying much attention to what he has been saying. Nevertheless, the seeds of his arguments did not all fall on barren soil and Mr. Burgher has made enough converts to enable him to organize a good roads association, composed of residents of Clay City and Spout Spring, a village over in Estill county.

So far Mr. Burgher's good roads organization is not very strong numerically, but it is made up of the right sort of material. It has set itself the task of improving the road between Clay City and Spout Spring and its members are lending their services with teams, spades, picks, hoes and shovels. The road overseer on the Estill section is co-operating with the association and is "warning in" his hands for an attack on a blue clay mudhole which is said to be the worst of the many bad places within his jurisdiction. Meanwhile Editor Burgher is staying right on the job with all the volunteers he can muster and a few hired hands. He says it will not be a turnpike this year, but it will be the best dirt road that Powell county ever saw when the association gets through with it—and that, too, with merely nominal expense to the county.

Mr. Burgher's road motto is "sixteen feet wide, high in the center with a ditch on each side" and if his fellow-citizens of Powell and Estill counties will back him up properly there will be a thoroughfare between Clay City and Spout Spring which will be a joy forever to the residents of those towns. And if they do not rally to his support, meeting him on the work and bringing a hoe, he ought to write them up collectively and individually, in future issues of the Times and tell them a few unpleasant truths about themselves.—Courier-Journal.

Rev. J. W. Doggett, of Clay City arrived here Saturday afternoon and as per previous announcement Preached Sunday morning and night at the Presbyterian church, on both occasions being greeted with large and interested congregations. It was only his second visit among us, but he seems to have captured the people by his easy, gentle manners, with the result that they turn out to hear him. He preaches here every first Sunday.—Hazel Green Herald.

Kentuckians Trade in Kentucky.

Every sheet of paper used in the Times print shop is purchased in Kentucky, and every other article we use both in business and at the home is bought in this State if it can be bought there. If every other citizen of the State would do this there would be no disappointment over the next census returns. Too much we use comes over the river which helps to build up some other man's state.

Streets Ditched.

Most of our streets that have so badly been needing ditching have been so improved this Spring, thus making them more sightly in appearance and better by far from point of health, and travel in wet times. Mayor Lovins and the efficient city Council are out to do things and make the people feel like they are getting the worth of their money invested in city tax.

A Cold Night.

Last night was one of the coldest of the winter the thermometer standing at sunrise at 14 above zero. Many peaches, plums and pears were bloomed and these are undoubtedly killed. The apple buds were probably not so swollen as to endanger this standard fruit. Owing to it being so dry if no further hard freezing occurs the early fruit may not all yet be killed.

Hardwick and Co. the leading merchants of Stanton have received their Spring goods and will tell our readers something about them in the next issue of the Times.

New Factory.

Geo. Tomlinson has bought the old handle factory plant in this city and will install some kind of a manufacturing business which he has not yet made public. The new enterprise will work several men and has been exempted from municipal taxation for five years.

Card of Thanks.

We take this method of extending our sincerest thanks to those who so tenderly ministered to the wants of our dear companion and mother during her recent illness and death, and may they ever be so kindly comforted when such a sad loss must fall upon them

Senator Root, of New York, a "trust tool" had to dig up the "race question" in discussing the proposed amendment of the Constitution, for the election of U. S. Senators by the people, instead of by State Legislatures where corruption has become so prevalent—the candidate with the biggest "barrel" usually getting the Senatorship if it is a Republican legislature. Root cannot point out a single southern state in which a millionaire has ever bought a senatorship, such as Mark Hanna did, and Guggenheim of Colorado did, and such as Lorimer's friends recently did in Illinois not to mention many others. No, Senator Root, you who pay \$25,000 per year for rent alone of your palatial home, who made millions out of corporations as an attorney, and whose interest you still serve in the Senate—no, you cannot scare the North or South with your "hog-bear", for the North has suffered most from the present system of electing senators, and is more eager for reform, which is bound to come. The present system is intolerable.

On the first page of this issue we reproduce an editorial from the Courier-Journal which is highly appreciated by the editor and which should be appreciated by the people of Clay City for what it says of the city. The Courier-Journal is not only the leading paper of our State but it is one of nation-wide reputation, then why not such recognition from such a far-famed Journal be appreciated? May the renowned editor of the Courier-Journal live many more years to further grace our great Commonwealth for his fearless stand against lawlessness and for the general uplift of our resourceful State. Yellow Journalism is ever a stranger in the Courier-Journal office.

The Times is glad to see the county authorities taking action against those who have their fences set on the county roads. The road in every place is thirty feet wide and where it is not now this wide it has at some time been fenced by the land owner of one or the other sides and they should be compelled to set back their fences. County Attorney Phillips in bringing suit against some of the land owners to compel them to set back their fences and give 30 foot road, is being commended by all lovers of good roads. He will in due time bring such suits against every other land owner in the county who is so intruding on the county's highways.

President Taft who is Commander-in-Chief of the National Army has ordered more than 20,000 soldiers to the Mexican border line for the avowed purpose of preventing an invasion of Mexico by any foreign country and to be ready at any necessary minute to protect American interests. What are American interests in Mexico? Why the Standard Oil Company, some of the railroads and other trust interests. Just like Taft. He is a big man and must protect big men's interests.

The derided mountain counties of Kentucky which for years has had fun poked at them, are now being envied by our more favored Bluegrass region because of their growth in population and wealth to far surpass that section. Hundreds of our best people have yearly moved to the Bluegrass ever since the writer can remember, had this not been the case what for a showing would these counties have made?

Have you or your neighbors any interests to protect in Mexico? A Philadelphian a few years ago tried to get us to take \$10.00 stock in a rubber plantation, and possibly a swindler or too tried to get us into a contract to make us rich growing bananas on a slick scheme project. They also only wanted \$10.00 apiece. We didn't bite, consequently we have no interests to protect.

Much ado is being made by some of the Democratic papers of the State about a party platform for the candidates to stand on when they are nominated. The other side, they say will have the best of us on this because they will name their candidate in convention and build a platform for them to stand upon. Why not make the issue in the race the parties records in office?

Judge O'Rear seems to lead all other candidates for Republican gubernatorial honors. Judge O'Rear with another prohibition plank in his platform like Willson—had will catch many good votes, while the other fellows will be held by a wink of the eye as was done before. But some people get tired of being fooled.

Senator Bradley says he is for Lieutenant Governor Cox for the Republican nomination for Governor of Kentucky this time. We are too for Cox or any other Republican they may put up being flayed by Jim McCreary or some other good Democrat this fall by 25,000 majority.

A Democratic exchange says two men in the Democratic party of this state will by their actions cause it to go Republican this fall. If two men can cause it to go the wrong way it is no Democratic party. Democracy doesn't work that way.

If a case could be made out of every falsehood that will be sworn at Stanton Circuit court next week the docket for the June term would be more than twice as large as it will be otherwise.

The Clay City Times has lately been flying, some of the boys and got it to rise without any trouble. And we might say it was after the due was off.

It takes a man with the dough to attend a swell affair but he must not forget to see that his dough has the right brand of soda in it.

What does a platform amount to for Republican office seekers. They only need one to run on, they can't stand on one that will elect them. Suckers are scarcer now than they used to be.

Wonder what General American Republic Taft is expecting to invade Mexico that he must have the soldiers right on the spot?

Texas Rough Riders will present the Colonel with a \$500 saddle—and just when he has been unhorsed too.

Most men will help you pull up a stake if you will give them both ends of the rope.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Attacks School Principal.

A severe attack on school principal Chas. B. Allen, of Sylvania, Ga., is thus told by him. "For more than three years," he writes, "I suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys. All remedies failed till I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Such results are common. Thousands bless them for curing stomach trouble, female complaints, kidney disorders, biliousness, and for new health and vigor. Try them. Only 50c at Swann-Day Lumber Company's store.

Improving Old Residence.

J. B. Eaton is improving the old log residence just across the street from the Central Hotel and it will be made on the inside a dwelling fit for a king to reside in, though the old log wall will be still left for the exterior finish to serve for years yet to come as a relic of the pioneer settlers days. The logs are apparently as sound as they were fifty or more years ago. When the house is completed it will be occupied by Mr. and Mrs. W. T. McGuire.

Notice to Creditors.

Any and all persons holding claims against the undersigned by notes, accounts, or in any other capacity whatever are hereby notified to present same to me for payment within the next thirty days as I want to settle up everything at once. Western Winds.

If you think you want to move West where the wind is almost all the time blowing you must certainly have enjoyed yesterday. Though some say yesterday's wind is mild compared with the Western product.

Granulated Eye Lids

Do not need to be cauterized or scarified by a physician. Sutherland's Eagle Eye Salve is guaranteed to cure them without pain. It is harmless and a sure cure for granulated lids. 25c tubes at all dealers.

Espouses Cause of Good Roads.

The Irvine Herald has specially espoused the cause of good roads for Estill county. In this cause every citizen of the county should co-operate. There is but one salvation for Powell and Estill counties that we can so far see and that is scientific farming and good roads. Good roads would be easy if all citizens would join together and work to that end. Modern scientific farming is possible for any farmer individually.

A Fierce Night Alarm

is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin, of Manchester, O., [R. R. No. 2] for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. **THE ONE REMEDY** which contains no alcohol

creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

Making Good Roads.

The Clay City and Spout Spring Good Roads Association is making some headway in improving their road. The fill on Plum creek hill which will eliminate the steepest part of the hill and make it a good easy pull is about one-half completed. Every one speaks of the good work with the greatest of praise. This work if done by the county would have cost no less than \$300 besides the pike which will be built on the fill, but as it is, it will not cost the county one cent, and those doing the work will feel amply repaid for their trouble.

GOOD ROADS ASSOCIATION NOTES.

Elder Geo. W. McIntosh still insists on whatever we do doing it right before we quit.

T. S. McKinney, overseer of the Estill section has fixed the worst mud hole on his road.

Some of those who travel it most have not yet shown up to work but we think they will later.

Overseer Geo. W. Pasley is putting Phillips hill in the best condition it was ever known to be before.

Many who promised to help have not yet shown up. We know you are just too busy at this time and intend to come later.

Merchant Geo. S. Ware has never yet failed to send his team every day any work was being done on the road. If you don't trade some with him you should be ashamed for not doing so.

The dirt taken from a ditch on the roadside is usually thrown just on the bank of the ditch so the water which falls on the road must stay in the middle of the road and make mud. And still many people will wonder at the road getting muddy when such a good ditch is on the sides.

Dirt roads can be made better. There is not a piece of this road where it was properly ditched and made high in the center last summer that is a bit muddy. It will get soft and sloppy during rainy spells and freezes, but is dry with a warm day's sun. The dangerous mud holes on this road are where the road is the only ditch near the mud hole. We can't expect good roads from bad work.

You who live on this road, and you who do not live directly on the road, but use it all the time, do you want to help and get proper credit for this advance movement? If so, send your name and obligation to this association and tell us when to call on you for help. Some members of the club are always ready and will help anyone any time they

may want to put in a day's work but think they may get lone-some working by themselves.

T. S. McKinney and Geo. W. Pasley, overseers, are doing all it seems possible to do to improve other portions of this road. The question is now being asked what about that portion of the road between the bridge and the ford at Clay City. That will, we are most sure, be well cared for soon as practical. Mr. P. D. Todd, the overseer on this road has done more for the improvement of roads about Clay City than any other one man. He and Mr. Curtis Bowman it was that did such a good job on the road between the bridge and Powell's Valley church and now that a pike is all that can properly fix the hill this side of the old ferry bridge we are sure Mr. Todd will give us this much needed improvement. Plenty of rock is right on ground and you need not fear, it will be put on the hill. Other sections of the road will be looked after as fast as they can be gotten to. We renew our statement, a first class road will be made between Clay City and Spout Spring this year. You need not forget it.

Our motto for road bed:

Sixteen feet wide,
High in the center,
A ditch on each side,
No mud holes in the winter.

When we say sixteen feet wide we don't mean that the farmers fence may be within 8 feet of the center of the road—no not at all. The law provides for a thirty-foot road and we want it that wide, 15 feet from the center of road on each side.

NOTICE.

PUBLIC SALE AND RENTING OF

Montgomery Co. Farm,
NEAR CAMARGO.

The undersigned will, on MONDAY, APRIL 17, 1911, being County Court day, at the court house door, Mt. Sterling, Ky., beginning at about 11 o'clock a. m., offer at public sale the tract of 203.06 acres of land lying in Montgomery county, Ky., near Camargo adjoining the lands of J. S. Bogie, Congleton and others; being the same tract of land conveyed by J. S. Bogie to Mrs. Lizzie S. Brooks by deed recorded in the office of the clerk of the Montgomery County Court.

Have arranged for a pass-way. All this land is in grass except ten acres. If not sold, the farm will be rented then and there to the highest bidder.

Terms made known on day of sale.

Mrs. PEARL CRAM,
as Executrix of Mrs. Lizzie Brooks.

Ground hog winter ends today. It came in as a lamb but is making good going out as a lion.

Jack Spratt's Platter.

Jack Spratt would eat no fat
His wife would eat no lean,
So betwixt them both
They ate one goat,
And licked the platter clean.

And speaking of platters reminds us that a great many families would like to have a new platter to decorate the table with, and we are going to tell them how to get it.

The American Farmer, published at Indianapolis, is giving away a beautiful Violet Dinner Set free, including a Jack Spratt Platter—while they last—to a certain number of our readers.

This Violet Dinner Set is of fine grade, light in weight, very tough and durable. It is snowy white in color and has a genuine china glaze, giving the set a smooth and velvety appearance. The shapes are latest Haviland design, with deep, scalloped edges, handsomely ornamented with scroll work. Each piece is decorated with a beautiful cluster of violets, with flowers and green leaves in natural colors. Each piece also has an elaborate semi-border of vining sprays in gold—all baked in and glazed over so that the decorations are in no way affected by wear or washing, and will be found just as bright and attractive after years of service as at the time we send them to you. Every piece is perfectly made, very handsome in design and finish. It will be a beautiful surprise when you see it.

Any reader of this paper who sends 5 two-cent stamps or ten cents silver to the American Farmer for three months' subscription can learn how to get this handsome Violet Dinner Set free. Address American Farmer, Indianapolis, Indiana.

Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.

TAKE CARDUI

It Will Help You

Mrs. Katie Burlison, Goreville, Ill., tried Cardui and writes: "I suffered with female troubles, and was so sick I could not stand on my feet. Finally I began to take Cardui, and soon began to mend. Now I am able to do all my housework and am in much better health than I was before." Try it.
